

Americans Doubt Parral Massacre

Nogales, Ariz., Nov. 21.—Four American refugees from Parral, who arrived here last night said today they were skeptical of reports that all foreigners remaining there had been killed after Villa and his bandits occupied the town. They said they left as a matter of expediency and not through anticipation of any real danger.

The four men said there were about sixty Americans and other foreigners in Parral when they left their mine, two miles outside Parral, November 2, believing Villa would come there after taking Santa Rosalia. Howard Gray, an American, they said, volunteered to remain in charge of the mines.

This Road Wants Early Decision On 8-Hour Law

Kansas City, Mo., Nov. 21.—Frank Hagerman, acting as special counsel for the Federal Government, filed proceedings here this afternoon for immediate action by the Supreme Court in the case of the Missouri, Oklahoma & Gulf Railroad, known as the Kenefick road, which is in the hands of the receivers. The receivers a few days ago brought injunction proceedings, similar to those brought by other railroads in courts scattered over the United States, to prevent the Adamson law's going into effect and attacking its constitutionality.

Hagerman's petition asks that the court give a forthwith decision on the injunction asked by the receivers, and then for an order directing the receivers to join with the Government in getting the case before the Supreme Court, which convenes Dec. 4. The proceedings filed by Hagerman was not an answer to the injunction asked by the railroads direct, but a plan to hasten the case.

The proceedings will be the first in the United States to be tried out, and much of the future action, both of the Government, the brotherhoods and the roads, will depend on the outcome.

WORLD TRADE Theme Of President's Message

Washington, Nov. 21.—The call to American business men to meet the unprecedented trade conditions after the war will be the keynote of President Wilson's message to congress Dec. 5. Completing the message today, he expected to have it in the hands of the printer soon.

The president believes that the country's industries can do a maximum amount of work only when the industrial unrest is at a minimum. His message is expected to emphasize this in an appeal to the employer and the employe for more co-operation, more confidence in each other and less tendency for class feeling.

In this connection the president formulated plans rendering it almost impossible to have strikes of any kind. He will urge the completion of a program similar to that proposed in the last message, to handle situations like the recent threatened railroad strike.

Wilson believes that abroad also must be laid the foundations for a coming trade upheaval. He will urge congress to act immediately upon a measure similar to the Webb bill, which would permit American exporters to organize without fear of anti-trust action.

OTHER MEASURES.

Wilson's message is also expected to urge new conservation laws, legislation rendering fuller political justice to Porto Rico, a corrupt practice act, federal aid and stimulation to industrial and vocational education and possibly laws giving federal agents more effective weapons in dealing with conspirators against the neutrality of the government.

He will also urge a continuation of a national defense including material additions in the navy.

FACES PENALTY OF DEATH FOR TAKING COMPASS

Gary, Ind., Nov. 21.—Death penalty under an old sea law faces C. A. Shillinger, if he is convicted of stealing a compass from a United States Steel Company's ore ship.

Under a law passed in 1790, Shillinger, if found guilty, must either be freed or hanged from the yard arm of the ship in Gary Harbor. Shillinger will be tried in the United States District Court at Indianapolis.

BRYAN PLEADS TO BAR WINES FROM HOMES

Chicago, Nov. 21.—Wealthy church members are seriously weighing the plea of William Jennings Bryan here that they exclude wine from their tables.

"Such action will take from the liquor men the argument that the saloon is the poor man's club and that the rich have no right to enjoy their wines at their clubs and tables while they deprive the poor man of his enjoyment," Bryan said.

He acknowledged his change of mind on the question of prohibition saying that he once voted for high license and against State prohibition.

"But I changed because I found liquor interests wouldn't adjust themselves to any community unless they controlled it," he said. "I am now in favor of the dry fight in town, country, State or Nation and I am ready to join with other nations in wiping out the liquor traffic from the face of the earth."

Bryan announced he will return later for a ten-day campaign to aid Chicago in its anti-saloon fight which is to culminate in 1918. His visit here yesterday was the opening gun of the campaign.

Washington, Nov. 21.—Despite much agitation in its favor, President Wilson is not expected to urge an embargo on food exports in his address to congress. Petitions for some restriction have been piling up at the White House for several weeks, and it has been predicted that a determined effort to have congress act would be made soon after the session opens.

The president, however, has discussed increased food prices with Attorney General Gregory and federal attorneys in various parts of the country now are conducting investigations.

After today's cabinet meeting members said there was very little if any prospect for any action. It also was said there was nothing new in the submarine or Mexican situations.

Washington, Nov. 21.—Early Christmas shopping and mailing was commended by the National Association of Assistant Postmasters meeting here today. Laredo, Tex., Nov. 21.—All salaries of Mexican government employees are payable in fifty per cent gold, according to Mexican newspapers reaching the border today. A decree fixing the percentage basis was issued by Gen. Carranza on November 15, the newspaper says.

Eight-Hour Day Or "Unfinished Business"

Baltimore, Nov. 21.—Warren S. Stone, head of the Brotherhood of Locomotive Engineers, answered with a veiled threat when questioned today if the railroad brotherhoods will call a strike if pending injunction proceedings to tie up the operation of the Adamson eight-hour law are granted.

"There's going to be an eight-hour day on the railroads—or there will be some unfinished business before this country," he said.

Though an enthusiastic welcome was given Stone and the heads of the three other brotherhoods by the delegates to the American Federation of Labor convention, it is not thought that the railroad brotherhoods will ally themselves with the federation. Chief Stone issued the following statement to the federation:

"We are not allied to the American Federation only because jurisdictional disputes would at once arise in case of such an alliance."

Among expedients suggested today to bring down the cost of living are a direct market between the farmer and retailer, the Australian system of state and municipal regulation of food commodities and the use of New York's subway system as a food carrier. Advances in prices of turkeys, butter and eggs were announced today. In butter and eggs the increase was slight and was chiefly felt in the wholesale market. NO CHANCE FOR SPLIT
IN VOTE OF ELECTORS

San Francisco, Nov. 21.—Little likelihood of a split electoral vote in California was seen here today by Republicans who have checked the unofficial election figures of fifty of the state's fifty-eight counties. The eight missing counties will not develop any serious discrepancies according to some of the party leaders.

President Wilson's plurality, according to the check of the Republicans, will not be less than 3461.

"We are not prepared, of course, to give final figures," said J. Mcatee, secretary of the Republican state central committee, "but it is a very close approximation of the final total."

PARIS PAPER TELLS OF
FALL OF MONASTIR

Paris, Nov. 21.—The allied troops entered Monastir on the heels of the retreating Bulgarians, according to a description of the fall of the city telegraphed to the Petit Journal by its correspondent on the Serbian front. The dispatch dated Sunday says:

"The last Bulgarian patrol of seventeen troopers left the city at 9:30 a. m., just as the allies' advance guard entered. Women showered flowers on the victorious troops as they marched through the streets. The night before, the enemy, after defiling thrice through the main street, pillaged all the stores and toward midnight set fire to the ambulance, barracks, forage depots and all buildings of a military nature.

"The retreat began about 3 a. m. The officials had evacuated the night before and nearly 3000 Bulgarian families left two days ago. The infantry was not clear of the outskirts until 8 a. m. The enemy is being closely pressed by our troops but bad weather makes both pursuit and retreat difficult.

"The enemy will attempt to form up on a line 17 miles to the north which was prepared two months ago and which passes approximately along the Topolchani heights by the villages of Klepao, Kahartlachi and Hill 1506 of the Visoko range. During the last two days he has been obliged to abandon an enormous quantity of material."

NEW MEXICAN CRISIS
IS NOW AT HAND

Atlantic City, N. J., Nov. 21.—The American commissioners today gave to the Mexican commissioners what is understood to be the last opportunity for an amicable settlement of the problems that have arisen because of Carranza's failure to provide adequate protection for life and property along the international border.

In joint session, Secretary of Interior Lane, as chairman of the American commission, informed Mr. Carranza's representatives that the American punitive expedition would be withdrawn within a reasonable time and under conditions that would not impair the dignity of the American government or leave unprotected the territory just south of the border now patrolled by the Americans. Incident to such withdrawal he outlined the manner in which the American government was prepared to guard the line of frontier and run down and punish any marauding band that attempted a crossing into the United States. He made it clear to the Mexicans that this government would not tolerate any restrictions on the pursuit of bandits by American troops.

How Luis Cabrera, chairman of the Mexican commission, and his colleagues received what is regarded as the last word of the American commissioners, was not expected to be known until after the session came to an end this afternoon. Steady opposition to the plan by Mr. Cabrera and continued insistence that further activities of American troops in Mexico must be restricted in various ways have marked the conferences of the joint commission for many weeks and it was the apparent determination of the Mexicans not to yield that caused Mr. Lane to place before President Wilson all the facts in the case. When he went into the conference this morning he carried with him the assurance of the president that he had unqualified backing of his plans. The Mexicans were aware of the president's attitude, and it was regarded as probable that they would recede from the position they had taken.

A DARING HORSE THIEF PURSUED BY OFFICERS

Between 3 and 4 o'clock yesterday afternoon an unidentified stranger went into Emmet Cain's pasture in West Paris, and catching a horse belonging to him, he put a piece of wire around its neck, led it to the boulevard road, and mounting it bareback struck out west. The owner of the horse and three or four other young men were out hunting, and two and a half miles from home they met the man on the horse. Mr. Cain recognized his horse at once, and one of the party who was carrying a gun, pulled it on him and ordered him to halt. The stranger jumped from the horse and took to his heels, going across fields as fast as he could run.

The owner of the horse and all of the others took after him and ran him about three miles, when they met a man coming to town and asked him to notify the officers. They continued their chase after the thief until they ran themselves down without overtaking him. In the meantime the man in the automobile notified the officers and Sheriff Lain and Deputies Clarkson, Ed Bell and Odus Parks went out in an automobile in pursuit about an hour behind. They met one of the hunting party and had him to go with them where the fugitive was last seen.

The officers then took up the trail and they could hear of him all along until he reached a point about a mile and a half north of Atlas in a bois d'are thicket in Campbell's pasture on Auds creek. The officers were just ten minutes behind him when he was seen to enter the thicket and it was dark when they arrived there and they had to abandon the trail. After abandoning the hunt they went to Atlas in the rain and telephoned around to different places for officers to be on the lookout.

The man was wearing a black or dark blue serge suit and a broad-brimmed hat and appeared to be six feet tall.

CHICAGO MAY PUT HEAVY TAX ON ALL AMUSEMENTS

Chicago, Nov. 21.—Grand opera will be taxed 20 per cent of its gross income and a percentage tax also will be levied against all other amusements excepting motion picture theatres if proposals of Eugene Block, an alderman, are adopted. Mr. Block previously had urged that a 10 per cent tax be levied against the receipts of the two major baseball clubs of the city. The steps are necessary, he urged, to increase the city's revenue to meet increased demands upon its pocketbook.

LAWYERS TO CONDUCT CORNERSTONE LAYING

After the appearance docket had been called in the county court yesterday morning a meeting of the bar was held to make arrangements for the laying of the cornerstone of the new courthouse. The county commissioners had given the lawyers permission some time ago to officiate at the laying of the cornerstone. Such a proceeding is rather unique and somewhat out of order, but it was suggested that the lawyers were the representatives of the people in the courthouse and that it was fitting that they should lay the cornerstone. The old cornerstone will be used in the new courthouse, but of course it will bear a different inscription. At the meeting a program committee composed of Judge L. L. Hardison, Edgar Wright, W. A. Hutchison and Judge T. L. Beauchamp was appointed and met in the afternoon at the office of Mr. Wright to arrange the program and to select a suitable inscription to go on the cornerstone, to decide on the date for the ceremony and other details.

At the meeting of the program committee it was arranged that there should be three addresses. Mayor Ed H. McCusick was selected to make an address as historian for the county; A. P. Park as historian for the courts of the county, and E. S. Connor, president of the bar association, as historian for the Paris bar. A synopsis of the addresses will be written on parchment and deposited in the cornerstone box. There will also be a metal tablet with the names of the members of the Paris bar engraved on it and deposited in the box. Attorneys from neighboring points will be invited to participate in the ceremonies. The date for laying the cornerstone has not yet been selected.

PETITION FOR DRAINAGE DISTRICT POSTPONED

A meeting of the county commissioners' court was held yesterday afternoon for the purpose of considering a petition presented by a number of land owners tributary to Sulphur bottom who live below Broadway, asking for the creation of a drainage district, and who wanted the court to make an order creating the district and to order an election. When the matter was presented it appeared that the petitioners had filed a new petition since the notice was issued, and the court held that as a new petition had been filed new notice would have to be given. There were several contestants present who were opposed to the creation of the proposed drainage district, and it was on their objection that the ruling was made. Arthur A. Stiles, state reclamation agent, was expected to be present at the meeting, but he failed to put in an appearance.

GRAND JURY REPORTS AND ADJOURNS SINE DIE

The grand jury returned eight felony and nineteen misdemeanor indictments into court yesterday morning and three more felonies in the afternoon, after which it adjourned sine die. It had intended to adjourn early in the afternoon, but it was reported that officers were after an alleged horse thief and they held back to await the result of his capture so as to investigate the facts. No word was heard from the officers and the grand jury submitted the following very brief report and adjourned:

"To Hon Ben H. Denton, Judge of the Sixth Judicial District of Texas:

"We, the grand jury for the October term, 1916, of your court respectfully submit to you this as our final report: We have examined 417 witnesses and have returned fifty-eight indictments charging felony violations and 23 misdemeanor indictments, and have given all matters coming to our attention thorough investigation. Having been in session for nineteen days and having completed our work, we respectfully request that we be permitted to adjourn."

TWO WOMEN AND WHITE MAN TAKEN IN CHARGE

Deputy Constable G. B. Brown was called to a house northwest of town yesterday afternoon where there was reported to be a disturbance. Officer Terrell accompanied him and when they arrived they found that the trouble was at the home of a negro fortune-teller, and the alleged participants in the disturbance were a couple of white women, part Choctaw, from Oklahoma, and a white man. One of the women was the one who was beaten up at 2 o'clock last Sunday morning in a drunken row, and the white man was the individual who was charged with beating her up. Deputy Brown and Officer Terrell placed all three of them under arrest, the women on the charge of vagrancy and the man on the charge of disturbing the peace.

A SPECIAL VENIRE CASE SET FOR TODAY

There was no business disposed of in the district court yesterday, the assignment having been disposed of on Monday by the defendants pleading guilty, and the court spent some time reading over the minutes of the business disposed of during the term preparatory to adjournment. The case of Moody Mabry, Truett Locklear and Clifford Chesney, three young men charged with robbery with firearms, is set for today, and it being a case in which capital punishment may be visited, a special venire has been summoned from which to select the jury. The victim of the alleged robbery is Jim Stett, a resident of Cooper.

It is claimed that he had been on Oklahoma and reached Paris on a late train on his way home; that he met the defendants at the depot and asked them where he could get a place to stay all night, and that they told him they were going by one and would show it to them. It is claimed that when they got him in a dark place one of them drew a pistol on him and made him hold up his hands, and that they got \$9 from him.

A. B. PARK'S HAY BARN BURNED NEAR AMBIA

A good-sized hay barn on the farm of A. B. Park near Ambia was destroyed by fire last Friday. It was set on fire by a four-year-old negro boy, whose mother was picking cotton on the place not far away. The child got some matches and went to the barn and struck them in the hay. There was three hundred bales of hay in the barn and it burned rapidly. A person passing by the barn saw the little negro run away just as the flames burst out, which left no doubt as to how the fire started. The barn had been especially built to store hay in and it did not contain anything else. Another barn containing corn and other feedstuff and the dwelling were saved by the wind being in a favorable direction.

MISS JENNIE GRANT DIES FROM PARALYSIS

Miss Jennie Grant, an old resident of Paris, died at 8:30 o'clock yesterday morning at her home on West Cherry street. She was stricken with paralysis about ten days ago and had never recovered from the effects of it. The deceased was born in Pennsylvania and was seventy-six years old at the time of her death. She was the daughter of Col. David Grant, who came here from his native state during the Civil War, and who for a while after the war was associated with the late Capt. F. W. Miner in the newspaper business in Paris. She returned to Pennsylvania while the war was still in progress and made her home with an aunt several years.

The deceased returned to Paris after the death of her aunt and resided here continuously ever since. She had resided here for about forty-five years after returning from Pennsylvania the second time and lived a quiet life, but while she was retired and unassuming she did a great many deeds of charity which she didn't let anybody know anything about. She was a very devoted member of the First Presbyterian church, and while she did not confine her deeds of charity and contributions to the support of Christianity to her own denomination, she was very liberal in her contribution to her church and took a great interest in the Sunday school.

Miss Grant was known to all of the older residents of Paris and was held in affectionate esteem by all who knew her in the church and Sunday school and outside of the church. She was a sister of Mrs. Jno. T. Henley and Mrs. U. Mattheissen, both deceased. She leaves no brothers or sisters surviving, but is survived by several nephews and nieces.

The funeral service will be held at 10 o'clock this morning at the First Presbyterian church and will be conducted by Rev. Luther Rees. The burial will be at Evergreen cemetery.

MISDEMEANOR DOCKET OVER FOR THE WEEK

There were a number of cases disposed of on the misdemeanor docket in the county court yesterday, but only one of them was a contested case. A young Greek was tried by jury on the charge of stealing a necklace from a woman at a residence on North Twentieth street where he had boarded and was fined \$1 and was given one day in jail. Henry Brown was fined \$5 on a charge of vagrancy and Sam King, colored, was fined \$5 on a charge of assault. Roy Williams was fined \$5 for vagrancy on a plea of guilty, and B. A. Hamilton was given a thirty days' jail sentence for carrying a pistol and was fined \$1 for vagrancy on a plea of guilty. Most of the cases on the assignment for today having been disposed of yesterday the jury for the week was discharged.

Chicago, Nov. 21.—A campaign against Chicago school boys who have been arming themselves with revolvers, rifles and knives for use in fighting their playmates was announced today by J. M. Loeb, president of the board of education.

Disturbances in several school districts caused an investigation in which weapons were seized from budding gunmen. Among them was a French bayonet bearing the date of 1876, taken from a twelve-year-old boy.

STATE SEEKS TO CONVICT M'DANIEL ON CIRCUMSTANCE

St. Joseph, Mo., Nov. 21.—The state continued its attempts in the criminal court here today to weave a web of circumstantial evidence around Oscar D. McDaniel, prosecuting attorney of Buchanan county, who is on trial on the charge of having murdered his wife. Continuing the testimony started yesterday, the prosecution expected to call witnesses to the stand today who might aid in its efforts to disprove the theory advanced by McDaniel that robbers who broke into his home and murdered his wife, after having obtained two rings, one of which was described as the prosecutor's engagement ring.

Interest today developed around the admissibility of certain evidence the prosecution declares it hopes to produce to show strained relations between the accused man and his wife before she was clubbed to death in her bedroom the night of July 14.

The case as developed late yesterday, brought into the trial for the first time the name of Mrs. Dagmar Krucker, divorced wife of a St. Joseph business man and friend of Mrs. McDaniel. Testimony was adduced showing that she had been present, with her husband, at a fishing club near here at which were Mr. and Mrs. McDaniel about a week before the murder. She was said to have worn overalls.

FULL-BLOODED MOROS SEATED IN PHILIPPINE CONGRESS

Manila, Nov. 21.—The new Philippine congress convened under the Philippine bill which was signed by President Wilson on August 29, is in session and for the first time in the history of the government of the islands, a full-blooded Moro took his seat in the upper house. The Moro senator is Hadji Butu, for many years prime minister of the Sultan of Sulu.

Two other full-blooded Moros took their seats in the house side by side with two delegates from the wild tribes—one an Igorote and the other an Ifugao.

Hadji Butu who becomes a member of the senate by appointment of Governor-General Harrison, is looked upon as one of the strongest men among the Moros. In the last few years he has played a leading role in the transformation of the island of Zulu from a region of murder and pillage to one of progress and industry. Datu or Headman Piang, one of Butu's fellow tribesmen in the lower house was famous in the days of the American occupation of Mindanao. Datu Piang took to the mountains in the days of Spanish rule and transferred his hostility to the Americans on their arrival. At last he became persuaded that the Americans stood for justice and humanity and laid down his arms.

Altogether nine provinces, hitherto regarded as too close to savagery to have governmental representatives, have spokesmen in the new congress. Among these nine is the province of Luzon, the home of the so-called wild people.

LIVING COST TO BE PROBED IN THIS STATE

Fort Worth, Tex., Nov. 21.—A statewide mass meeting, to which Governor Ferguson and all mayors, as well as representatives of civil organizations will be invited, has been called in Fort Worth by the city commission for Nov. 29. The advancing price of all foodstuffs caused the call to be issued. The commission is threatening the establishment of a municipal market, where food will be sold at cost if prices continue to soar here. Congress will be memorialized by the mass meeting it is planned by the promoters of the meeting.

JAPANESE BUYERS TAKING AMERICAN BONDS EAGERLY

New York, Nov. 21.—Within the last six months Japanese merchants and exporters have invested nearly \$50,000,000 in American securities, according to estimates in banking quarters. For the most part the securities were bonds, largely underlying railroad issues, although a substantial part consisted of mortgage bonds of industrial companies returning a high yield on the purchase price.

These investments are believed to be the outgrowth of the shifts of commerce directly traceable to the European war. Japan has been shipping to the United States a great amount of goods formerly manufactured by Germany and at the same time exports of silks and other far eastern products from Japan to this country has been stimulated because of the reduction in the return demand.

GEORGETOWN REPORTS HEAVY EARTHQUAKE 2,000 MILES OFF

Washington, Nov. 21.—A pronounced earthquake lasting from 1:31 o'clock this morning until 2:15 a. m., with the maximum shocks at 1:44, was reported today by the Georgetown university seismological observatory. The center of the disturbance was estimated at from 2100 to 2200 miles from Washington.

THINK ABOUT THIS AND ACT PROMPTLY

If this rain keeps you indoors you will have a little time to think over the fact that Paris really owes \$100 to the payment of deficit in the Democratic campaign funds and that \$56 of the amount is yet unpaid. The News has, at the request of Treasurer Marsh, undertaken to collect this fund, and up to last night forty-three Democrats, women and men, had contributed \$44, all except one giving \$1.00 each. That amount is all that is asked for, and when one considers the wonderful enthusiasm with which the Democrats about here hurried for Wilson before the election, the sorrow with which they heard of his apparent defeat, the joyous reaction which they had when the complete returns came, the wonder is that the dollars have not poured in to even a greater amount than asked.

Treasurer Sam Bedford is waiting to send a draft for the full amount—don't let's make him wait longer.

HINDENBURG WANTS COERCION TO SOLVE FOOD PROBLEMS

Amsterdam, via London, Nov. 21.—The German papers print a second letter addressed by Field Marshal von Hindenburg to Chancellor von Bethmann-Hollweg, emphasizing his belief that a certain amount of coercion is necessary for the solution of the food, war material and working power problem. As a result of the field marshal's first letter dealing with these questions, the German economic council has issued an appeal to the farmers to use their utmost efforts in the production of foodstuffs.

"HOME ARMY" WILL CAUSE REVOLT SAYS BERLIN TAGEBLATT

Amsterdam, via London, Nov. 21.—The Berlin Tageblatt, discussing the compulsory service of civilians in the proposed "home army," expresses the belief that the step will cause a "deep but quiet revolution in Germany." Chancellor Von Bethmann-Hollweg has left Berlin for a short visit to army headquarters, according to the Völkische Zeitung.

CHICAGO WOMEN EXPERIMENT WITH HIGH COST OF LIVING

Chicago, Nov. 21.—A corps of women today began an investigation of the retail grocery establishments in Chicago in an attempt to determine the places at which eatables may be bought most cheaply. The investigation is being made in connection with the purchase of food with which to feed the "diet squad" of the municipal health department in an effort to determine whether a person can live, and live well on forty cents a day.

It is expected that the first meal will be served to the members of the squad tomorrow. Seven men and four women are preparing to make the experiment.
